

SAFE EYE

Touch And Fingerprint Access Controller

- All-in-one machine, WG26/34 input/output
- Fingerprint, password, card, mobile phone remote, multi-combination unlocking, convenient, quick and more humanized settings

Product Description

Waterproof Door Release Exit Button: Waterproof design, IP67, Stainless steel Panel and button, 500000 times life, Auto reset, Can be used as door release button, it's widely used for access control system

Technical Parameter

Model.NO	SA -FAC880
Dimensions	145L x 68Wx 25D (mm)
Operating Voltage	12-18VDC
Working Current	≤150mA
Idle Current	≤60mA
User Capacity	1000(100 Fingerprint,900 Card/PIN Users)
Access mode	Fingerprint,Card,Code,Card+Code, Multiple-access,Fingerprint or Card or Code
Radio Technology	ID :125KHz(Order:IC:13.56MHz)
Read range	2~6cm
Wiegand Interface	Wiegand 26-44 bits input output(Factory Default: Wiegand 26bits)
Lock Output Load	2 Amp Maximum
Alarm Output Load	2 Amp Maximum
Operating Temperature	-30°C~+60°C
Operating Humidity	0%~98%
Environment	IP66
Weight	0.5kg

About this item

- Durable, tamper-proof and vandal-proof
- High and low temperature resistance: high temperature 55°C, low >temperature -35°C
- Anti-magnetic and anti-copy: It can prevent unlocking with strong magnets and anti-copy cards
- 1000 fingerprints, 5000 card password user storage capacity
- Temporary password and public password can be set
- Data mutual guide and backup
- All-in-one machine, WG26/34 input/output
- Fingerprint, password, card, mobile phone remote, multi-combination unlocking, convenient, quick and more humanized settings
